

Dear friends and fans of GNU Radio,

GNU Radio Conference celebrates and showcases the substantial and remarkable progress of the world's best open source digital signal processing framework for software-defined radios. In addition to presenting GNU Radio's vibrant theoretical and practical presence in academia, industry, the military, and among amateurs and hobbyists, GNU Radio Conference 2020 will have a very special focus.

Speed, latency, delay, and timing! Enjoy our racing theme throughout the conference, featured in our contests and a high-octane Thursday night dinner. Papers and presentations on theme will be recognized at the conference with an award.

Please join us September 14-18, 2020 at the [Charlotte Airport Hotel](#) for the best technical conference of the year. Hotel address is 2800 Coliseum Centre Drive, Charlotte, North Carolina, 28217, USA.

Registration and an online and mobile-friendly schedule will be posted at the conference web site: <https://www.gnuradio.org/grcon/grcon20/>

Call for All!

We invite developers and users from the GNU Radio Community to present your projects, presentations, papers, posters, and problems at GNU Radio Conference 2020. Submit your talks, demos, and code! Please share this Call for All with anyone you think needs to read it.

To submit your content for the conference, visit our dedicated conference submission site at:

<https://pretalx.gnuradio.org/grcon20/cfp>

First round closes 17 April 2020. If accepted, your content will be immediately scheduled. Notifications go out 26 June 2020.

Final round closes 1 September 2019. Space permitting. Submissions received between 18 April 2020 and 1 September 2020 are accepted and notifications sent out on a rolling basis.

If you have questions or need assistance with submitting then please write grcon@gnuradio.org
